

REMARKS

Dependent claims 4-6, 11-77, 79, 80 and 82-108 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5 Applicant has amended the claims to accept all the allowable material specified by the Examiner. No new matter is entered. Due to the large number of claims, applicant has specifically listed the amendment (or none) performed on each of the pending claims. Additionally, applicant notes that in order to make the claim amendments clear, some claims are now dependent upon higher numbered claims. This was done rather than canceling all
10 claims and adding them as new, which would make it more difficult to see what was changed with respect to the original claims. Applicant points out that MPEP section 608(n), titled CLAIM FORM AND ARRANGEMENT states, "During prosecution, the order of claims may change and be in conflict with the requirement that dependent claims refer to a preceding claim."

15 In particular, the following amendments are made:

A. For allowable system claims 4-6:

- Amended claim 1 to include claim 4
- Kept claim 2 unchanged

20 - Cancelled claims 3-4

- Amended claims 5-6 to depend on claims 1 or 2

25 **B. For allowable subsystem claims 7-77:**
